

BOOKING TERMS AND CONDITIONS - PARTNER AND EXHIBITOR PACKAGES

Green Power Sweden Summit 2026

Green Power Sweden Summit 2026 is the natural meeting place for decision-makers, experts and companies that together drive the transition of the energy system. The event has grown out of the former VIND conference and today encompasses more perspectives and technologies – from wind power and solar energy to energy storage and power technology.

The name reflects the broader focus and the ambition to bring the industry together around a robust, competitive and climate-smart energy system.

The conference is organized by Green Power Sweden Ekonomisk Förening (769609-1250), formerly Svensk Vindenergi and Nätverket för solparker.
