

Power Talks at Green Power Sweden Summit 2026

Power Talks is returning for the third year as a program feature at Green Power Sweden Summit 2026, scheduled during the breaks in the main seminar program. Stakeholders get the chance to present their expertise at the conference and immerse themselves in one of their areas of expertise.

What Will You Bring to the Power Talks Stage?

A Power Talk is a short, sharp presentation of a compelling case that not only showcases your company's expertise but also sparks learning and discussion among conference participants.

The Most Interesting Cases Get 15 Minutes on Stage

A limited number of 15-minute slots are available for Power Talks. Submit your proposal, and Green Power Sweden will select the 7 most compelling cases to feature on stage.

Cost of a Power Talk Package

SEK 11,000 (excluding 25% VAT).

What's Included in Your Power Talk Package?

- 15-minute slot on the Power Talk stage
- One package per company
- Conference ticket **not included**

Booking Terms

Please note that the Power Talk package is **non-cancellable**. Once your booking has been confirmed, it cannot be refunded or exchanged. By submitting your application and securing a timeslot, you agree to these terms.

Language Requirement: English

Power Talks must be delivered in English. Simultaneous interpretation from Swedish to English will not be provided, so please ensure your presentation is in English to reach the widest possible audience.

Power Talks – Part of the Program at Green Power Sweden Summit 2026

Green Power Sweden Summit 2026 takes place over two days, 6–7 October.

- 6 October: The exhibition opens at 15:30, followed by an inauguration on the main stage at 17:00–18:00, and then a mingle among our 40-50 exhibitors and a networking dinner (mingle plate and drinks included in the conference ticket) at 18:00–20:00.
- 7 October: A full day with both exhibition and seminar program.

The Power Talk stage is a dedicated feature of the program on both days, scheduled during breaks so as not to compete with the main seminar sessions.

Located in the foyer, the stage offers good visibility, easy access, and a quieter space within the exhibition area. It is 40 cm high, equipped with a screen and sound technology, with seating for 70 participants and additional standing capacity (first come, first served).

Preliminary Schedule

- Day 1 (6 October):
 - Mingle in the exhibition 18:30–19:30: 3 × 15 min slots
- Day 2 (7 October):
 - Morning break: 2 × 15 min slots
 - Lunch break: 2 × 15 min slots

- Afternoon break: 1 × 15 min slot

(Times and number of slots are preliminary and may be adjusted.)

Power Talks Are Promoted Before and During the Conference

The Power Talk program receives visibility both before and during the conference. Promotion includes marketing mailings to all registered participants and featured placement on the program page of the website. On-site, start times are displayed on screens visible to all participants, ensuring maximum exposure for each presentation.

Applications welcomed

Send your application to GPSS2026@avalonagency.se and mark the email with **"Power Talk"**. The selection process is ongoing, so please do not wait to submit your interest. Your application should include the following:

1. Describe your case briefly

We are looking for an in-depth discussion that either relates to wind power, solar power, energy storage or supporting technologies in operation or to one of this year's overarching themes ([see here](#)).

2. Title your Power Talk and justify why participants should attend

Provide a maximum three-sentence justification. This title and justification will be used in promotional materials if your proposal is selected.

3. Specify the target group

Participants include politicians; developers and owners of wind, solar, and storage projects; electricity trading companies; landowners; turbine and equipment suppliers; technical and legal consultants; financial players; subcontractors; recruiters; the public sector; and academia – both from Sweden and abroad. Indicate which of these groups your talk is primarily aimed at.

4. Mark your email with "Power Talk"

Send your application to GPSS2026@avalonagency.se as soon as possible and mark the email with "Power Talk".

Secure Your Timeslot

We will contact you a few days later. Please confirm your offered timeslot as soon as possible so that we have time to include your Power Talk in the marketing of the conference.
